PROFESSIONAL SUMMARY

Frontend and Mobile Engineer with 4+ years building production-grade interfaces across agritech, fitness, telecom, and recruitment. Specialized in React, React Native, and TypeScript from pixel-perfect landing pages and complex data dashboards to cross-platform mobile apps shipped on both stores. Proven track record of owning entire frontend slices end-to-end, from architecture to deployment.

WORK EXPERIENCE

Software Engineer, Kraftbase, Vadodara

DEC 2025 – MAY 2026

- Improved landing page load times by 35% as measured by Lighthouse by refactoring GSAP animation sequences and implementing a critical CSS delivery strategy.
- Engineered an AI-driven EEG dashboard using React and Tailwind that processed real-time neurological data streams, reducing event detection latency by 15% through optimized TypeScript visualization components.
- Implemented Stripe-based dispute resolution and a real-time transaction UI, reducing payment-related support tickets by 20% via optimistic UI updates.

Frontend Developer, Mera Farmhouse, Chandigarh

SEP 2024 – JULY 2025

- Accelerated product delivery by 30% by architecting a shared component library between Next.js and React Native for an international agricultural marketplace.
- Achieved 100% on-time delivery for 5+ major releases for iOS and Android deployments.

Software Developer, Team Geek Solutions, Pune

OCT 2021 – JULY 2024

- Architected an automated interview management system that reduced manual administrative overhead by 50% through custom API integrations.
- Designed a centralized Storybook component library integrated across three separate platforms, ensuring UI architectural consistency and expediting new developer ramp-up periods.
- Reduced user-facing lag by 25% by implementing React Query for standardized data fetching and intelligent caching, improving system stability across 3 production environments.

SKILLS

Languages: JavaScript, TypeScript

Technologies: React.js, Next.js, React Native, Node.js, Zustand, React Query, Redux Toolkit, Tailwind CSS, MUI, Framer, Vitest, Jest

PROJECTS

Open Source Developer, RSVP (rsvp.kim)

- Reduced location search latency by 60% by replacing static menus with an API-driven autocomplete system, supporting 10k+ city queries.
- Established unit testing infrastructure to enforce architectural consistency and long-term codebase maintainability.

Frontend Developer, Evaltech (evaltech.ai)

- Built a dynamic form interface that fully automated interview question management via API, eliminating manual admin workflows and cutting operational overhead.

EDUCATION

Frontend Development, ZTM Academy, Certification
BA, Eng hons, Magadh University

2021
2017 – 2020
